Pension Fund Committee (PFC) with equal representation

On affiliation with the Nest Collective Foundation, all companies are required to set up a pension fund commission. The responsibilities of the PFC are governed by Article 3 of the Internal Rules of Procedure (IRP), while Article 2 IRP governs the election procedure. Please note that the law mandates equal representation, i.e. employees (who do not participate in major decision-making processes within the company) and employers appoint equal numbers of representatives. Employers may waive their right of representation in favour of employees, but not vice versa. Further information regarding the PFC is provided by the fact sheet on our website.

Please enter the members in the form below and return it to us within 30 days.
